**LTS 260 Carbon filter for elimination of bad odorants in the air.  
Air flow range 0,20-4,50 m<sup>3</sup>/s, divided into six sizes.**

## PERFORMANCE

- Casing made in steel plate with corrosivity class C5. Inspection hatches made in black plastic-coated sheet metal equipped with lockable knobs. Insulation 40mm fire-hardy mineral wool. Housing density class L2.
- Corrosion resistant carbon cartridges.
- No filter is required after the carbon filter.
- The filter retains full power with constant static pressure drop throughout life, normally 2-5 years

Size	Length mm	Width mm	Height mm	Duct dimension mm x mm
